

Design & Build Your First AI Agents: From Blueprint to Deployment

SHANGHAI TRAINING

**DESIGN & BUILD YOUR FIRST AI AGENTS:
FROM BLUEPRINT TO DEPLOYMENT**

 **Thursday, October 22nd**
 **8:30 AM - 4:30 PM**
 **English**
 **CCI FRANCE CHINE Shanghai**
 **In-person**

Agenda

Morning: Design Your AI Agent Blueprint

8:30 AM – 11:30 AM

1. Identify & Validate Your Killer Use Case

- Systematically pinpoint the task with the highest time-savings and feasibility ROI for your role.
- Test its viability in real-time using industry-leading models.

2. Specify Your First AI Agent

- Draft the full operational blueprint: variability, data inputs, stability checks, and integration points.
- Leave with a concrete, vetted specification ready for technical handoff or your own implementation.

Beijing

Suites 201-222, 2F, Building 81, No 4 Gongti North Road,
中国法国工商会北京办公室
北京市朝阳区工体北路4号, 81号楼二层201-222室
Tel.: +86 (10) 6461 0260 - Fax: +86 (10) 6461 2990

Shanghai

2/F, Mayfair Tower, 83 Fu Min Road Shanghai
中国法国工商会上海办公室
上海市富民路83号巨富大厦2楼
Tel.: +86 (21) 61327100 - Fax: +86 (21) 61327101

South China

Room 802, Leatop Plaza, 32 Zhujiang Dong Road Guangzhou
中国法国工商会广州办公室
广州市珠江新城核心区珠江东路32号, 利通广场8楼802室
Tel.: +86 (20) 2916 5510 - Fax: +86 (20) 2916 5535

Afternoon: Build Your AI Agent

1:30 PM – 4:30 PM

1. The 7 Capabilities of a Powerful AI Agent

We break down the dense technical concepts into clear, actionable insights:

- **Multi-Model Mastery:** Leverage the right AI model for the right task.
- **Intelligent Data Management:** Teach your agent to access, process, and utilize information effectively.
- **Workflow Orchestration:** Design agents that manage multi-step processes seamlessly.
- **Agentic Coding:** Understand how agents can write and execute their own code.
- **Human-Machine Interaction:** Design intuitive and effective interfaces for collaboration.
- **Machine-Machine Interaction:** Enable your agent to communicate with other software and APIs.
- **Trust, Security & Resilience:** Build with confidence using essential safeguards for enterprise environments.

2. The ROI Identification Framework

- A guided workshop to analyze your business operations and select the highest-value candidate for your first AI Agent.

3. Hands-On Development Session

- Using our pre-built, enterprise-grade template, you will architect and build a simple but powerful AI Agent designed to automate a task and save valuable time.
