

Project Engineer

Location: Zhanjiang

Sector: New product development

Starting date: ASAP

Job Reference: CDS2026028

ABOUT THE COMPANY

Operating in more than 40 countries, our client is a global leader in stainless, electrical, and specialty steel, with sustainability at its core.

RESPONSIBILITIES

- Analyze product design and requirements from clients to define the project scope.
- Develop, implement, and maintain production timelines across multiple departments.
- Follow up on pilot sampling and qualification for both bare glass and decoration, analyze the results, and conclude with a report and action plan if needed.
- Collaborate closely with internal departments including Sales, Marketing, Mold, Production, Quality, and Product Release to ensure successful project completion.
- Manage the artwork of decoration and follow up on decoration sampling.

REQUIREMENTS

- Bachelor's degree or above in Mechanical, Material, Chemistry, or a related field.
- Good and effective communication with cross-functional teams and clients.
- Good English skills in writing, speaking, and listening.
- Skilled in MS Office; CAD and AI knowledge is a plus.
